All

The version I sent was the latest. Currently, WO BLM and SOL are reviewing the letter and I do not expect many changes.

The email and letter were sent to both of your agencies. I am not looking for in depth comments or edits. I shared the draft letter in the spirit of transparency.

Cheers
Gene

Thanks Greg. To add, Gene mentioned the 8/2 letter isn't the latest version but he hopes the three of us can discuss some time today.

I asked why and the answer was rather loose and I heard well sometimes when the letter is sent to the upper leadership in EPA and NDEP it takes awhile for the letter to get routed to the right staff. I did inform them I would coordinate with the SOL on this topic. Nathalie/Lois, thoughts? All, please review the draft letter I sent earlier this week. I will resend and attach to this note.

Then Angeles engaged as to why BLM was on the agenda for introductions and updates. And sought that maybe during the introductions of all agency staff and the public that maybe BLM could speak and reference the MOU. I was on my cell and had a difficult time hearing or understanding why EPA was seeking a proposal to not have BLM on the agenda but at the meeting.....I have texted her back for a one on one call. Greg also somewhat agreed with her.....I will keep you posted after I re-engage

EPA spoke as to if they did not review the draft letter and stated that they would have to send out their own letter prior to the FRN posting. This was the case as we have discussed several times over the past 4 months. Ralph, have you had any responses to your letter? Has Rachel or others followed up with the tribes that you sent it too? I did state again that when BLM does meet with the tribe(s) that Ralph will also coordinating with EPA and NDEP on the meeting and they would be in the know. (This topic of tribal coordination continues to be a "topic" that seems to add angst to the group).

Also Greg did provide a heads up on the cover material for OU 8 and past tribal comments/concerns with the cover material. He also provided a heads up on "lead agency". He asked us to take a hard look at the document. Dave, can you please share and review?
